Puzzle **Author**

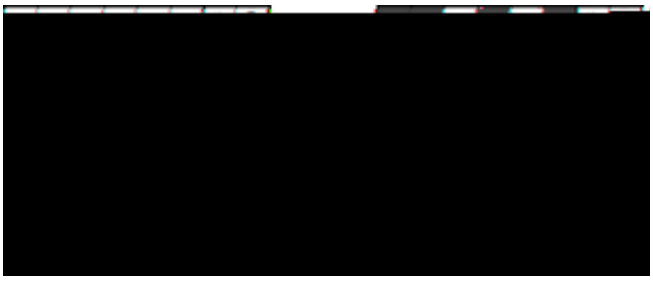
1 Trafalgar Square

4 & 4 points

2

4 Paint by Frame **23 points**

Paint some cells black. Numbers on the outside of the grid indicate the amount of cells that are framed by the other colour in that row or column. Framed cells do not need to be consecutive.



5 Four Snails 31 points

Write the given words along the snails, in the order from outside towards the middle. The same letter can} Ц m t

e

6 Snake with Dashes

7 UK Filler

8 Crossword **12 points**

Place o3k0 (k0 liste(odk0 w)10p)40 rds [P)in 40 th3(n(k0 g3(nri)5dk0 , 40 3k0)40 ri)5za40 ll3(ny)10p oa

9 Tapa **10 points**

Paint some squares black to create a continuous wall. Number(s) in a square indicate the length of black cell blocks on its neighbour

10 Slitherlink 26 points

11 LITS 26 points

Place one of the four tetrominos (L, I, T and S) in each marked region of the grid by shading in some cells. Tetrominos of the same type, including rotations and reflections, must not touch orthogonally. The resulgriytone resosenctiolr tndm4(v3(diamu)-2h2(o)-3(g[gze)-3(ctio)Tm(d)8m)l o(fo)-5(s

12 Star Battle 29 points

Place some stars in the grid so that there are exactly two stars (1 in example) in every row, column and outlined region. Stars cannot touch each other, not even diagonally.
