Puzzles by Adam Bissett

Place light bulbs (circles) according to the following rules: Light bulbs may be placed in any of the white squares, the number in the square shows how many light bulbs are next to it, vertically and horizontally. Each light bulb illuminates from bulb to black square or outer frame in its row and column. Every white square must be illuminated and a light bulb can not illuminate another light bulb.

Time your efforts for each puzzle separately. Then submit your time for each puzzle, and for each row, the first column which contains a lightbulb. If there are no lightbulbs in the row, enter X.
