Beginners Round 4 - 13th to 16th January 2022

Masyu

Puzzles by Adam Bissett

Make a single loop with lines passing through the centres of cells, horizontally or vertically. The loop never crosses itself, branches off, or goes through the same cell twice. Lines must pass through all cells with black and white circles. Lines passing through white circles must pass straight through its cell, and make a right-angled turn in at least one of the cells next to the white circle. Lines passing through black circles must make a right-angled turn in its cell, then it must go straight through the next cell (till the middle of the second cell) on both sides.

Time your efforts for each puzzle separately. Then submit your time for each puzzle, and the contents of each marked row, using L where the loop turns, I where the loop goes straight and X for an empty cell.
