Beginners Round 2 - 13th to 16th November 2020

Tapa

Puzzles by Freddie Hand

Shade some empty cells black to create a single connected wall. Numbers in a cell indicate the length of consecutive shaded blocks in the neighboring cells. If there is more than one number in a cell, then there must be at least one white (unshaded) cell between the black cell groups. Cells with numbers cannot be shaded, and the shaded cells cannot form a 2×2 square anywhere in the grid.

Time your efforts for each puzzle separately. Then submit your time for each puzzle, and the length of all shaded blocks for the nominated row as the "answer key"
