Beginners Round 5 - 12th to 13th February 2022

Yajilin

Puzzles by Sam Cappleman-Lynes

Draw a line to make a single loop. Lines pass through the centres of cells, horizontally, vertically, or turning. The loop never crosses itself, branches off, or goes through the same cell twice. The numbers show how many black cells there are in the direction of the arrow. The loop does not pass through the black cells or the cells with numbers, and black cells cannot touch horizontally or vertically.

Time your efforts for each puzzle separately. Then submit your time for each puzzle, and the column of the first shaded block in each row as the "answer key". If there are no shaded blocks, enter 0.
